

Risk Management Committee October 5, 2019 Report

The Risk Management Committee remains productive and engaged, with assigned duties including;

- We review all new member 3rd party liability insurance applications
- We will be reinstating delivery of the Risk Management Workshop to NS Trails members.
- A subcommittee of the RM Committee has been set up to review and revitalize the Trail Patrol Program. This sub-committee consists of Wilson Cameron, Beth Pattillo and Rick Jacques. The subcommittee will be bringing items forward for a brief discussion at this month's board meeting.
- The Risk Management Committee continues to assist groups with incident reporting and associated procedures.

The committee wishes to remind all trail groups to promptly submit any incident reports following the protocols listed on the NSTF website under Risk Management.

We would like to remind our trail groups to be extra vigilant in inspecting their trails after Hurricane Dorian and Tropical Storm Erin. These weather events have caused significant issues on many trails. Please also remain extra careful during cleanup duties and know when to call for professional help and advice.
